Journal of Membrane Science, 87 (1994) 312-313
Elsevier Science B.V., Amsterdam

Contents

Special Issue: Selected Papers Presented at the International Membrane Science and Technology Conference, Sydney, Australia, November 10-12, 1992

Preface vii
An experimental and analytical study of Permasep B10 separation characteristics
M.N.A. Hawlader, J.C. Ho and A. Malek (Singapore) 1
Novel membranes from conducting polymers
J. Mansouri and R.P. Burford (Kensington, N.S.W., Australia) 23
A comparative study of techniques used for porous membrane characterization: pore characterization
K.J. Kim, A.G. Fane (Kensington, N.S.W., Australia), R. Ben Aim, M.G. Liu (Compiègne, France), G. Jonsson, I.C. Tessaro (Lyngby, Denmark), A.P. Broek and D. Bargeman (Enschede, Netherlands) 35
Effect of the counterion employed during synthesis on the properties of polypyrrole membranes
H. Zhao, W.E. Price and G.G. Wallace (Wollongong, N.S.W., Australia) 47
Criteria for selecting the operating regime of the crossflow microfilter or the tubular filter press for clarification of turbid waters
A.F. Swart, C.J. Brouckaert and C.A. Buckley (Durban, South Africa) 57
Cleaning of ultrafiltration membranes after treatment of oily waste water
J. Lindau and A.-S. Jönsson (Lund, Sweden) 71
Spacer characterization and pressure drop modelling in spacer-filled channels for ultrafiltration
A.R. Da Costa, A.G. Fane and D.E. Wiley (Kensington, N.S.W., Australia) 79
Removal of dissolved oxygen in ultrapure water production using microporous membrane modules
M.S.L. Tai, I. Chua, K. Li, W.J. Ng and W.K. Teo (Singapore) 99
Treatment of landfill gas by gas permeation - pilot plant results and comparison to alternatives
R. Rautenbach (Aachen, Germany) and K. Welsch (Hamburg, Germany) 107
Performance of membrane separation bioreactor at various temperatures for domestic wastewater treatment
C. Chiemchaisri and K. Yamamoto (Tokyo, Japan) 119
Pilot scale brine concentration process using membrane pervaporation
J. Sheng (Bundaberg, Qld., Australia) 131
Effect of photocrosslinking on permeability and permselectivity of gases through benzophenone-containing polyimide
H. Kita, T. Inada, K. Tanaka and K. Okamoto (Yamaguchi, Japan) 139
Nafion supported cationic palladium complexes as catalysts
A.J. Seen, K.J. Cavell (Hobart, Tasmania, Australia), A.W.-H. Mau and A.M. Hodges (Clayton, Vic., Australia) 149
Application of membrane gas separation to oxygen enrichment of diesel engines
G.R. Rigby (Wallsend, N.S.W., Australia) and H.C. Watson (Parkville, Victoria, Australia) 159
Some considerations on mass-transfer resistances in solution-diffusion-type membrane processes
R. Rautenbach and F.P. Helmus (Aachen, Germany) 171
Hydrophobic membrane evaluation and cleaning for osmotic distillation of tomato puree
R.J. Durham and M.H. Nguyen (Richmond, N.S.W., Australia) 181
Removal of heavy metals and suspended solids from wastewater from wet lime(stone)-gypsum flue gas desulphurization plants by means of hydrophobic and hydrophilic crossflow microfiltration membranes
G.D. Enoch, W.F. van den Broeke and W. Spiering (Arnhem, Netherlands) 191
The permeability of biofouling layers on membranes
R. McDonogh, G. Schaule and H.-C. Flemming (Stuttgart, Germany) 199
The treatment of heavy metal effluents by crossflow microfiltration
G.P. Broom (Cannington, Western Australia, Australia), R.C. Squires, M.P.J. Simpson (London, UK) and I. Martin (West Thurrock, UK) 219

End of Special Issue papers

Meetings Calendar 231

Modified styrene–butadiene–styrene block copolymer membranes complexed with (*N,N'*-disalicylideneethylenediamine)cobalt(II) for oxygen permeation: polymeric axial ligand effect
J.-M. Yang (I-Lan, Taiwan) and G.-H. Hsiue (Hsinchu, Taiwan) 233
Characterization of ultrafiltration membranes by simultaneous streaming potential and flux measurements
M. Nyström, A. Pihlajamäki and N. Ehsani (Lappeenranta, Finland) 245
Pervaporation with latex membranes. II. Pervaporation properties and aging effect
R.Y.M. Huang and Y. Wei (Waterloo, Ontario, Canada) 257
Formation of air-cast cellulose acetate membranes. Part II. Kinetics of demixing and microvoid growth
L. Zeman and T. Fraser (Bedford, MA, USA) 267
Structure and aging characteristics of H_2-permselective SiO_2–Vycor membranes
M. Tsapatsis and G. Gavalas (Pasadena, CA, USA) 281
Membrane plants of modular design for diffusion controlled gas separations
D.A. White (London, UK), R. Canales (Santiago, Chile) and Q.T. Le (London, UK) 297
